Description

Mostra Mercato dei Formaggi d'Italia e dei Prodotti Tipici del Territorio
FORMAGGI IN PASSERELLA
FRESCHI O A PASTA DURA, MA SEMPRE "D'AUTORE" ED A IMPATTO ZERO.
CON UN OCCHIO ATTENTO ALLE ENERGIE RINNOVABILI.

Duro ed intenso l'Asago. Morbida la burrata. A pasta filata il caciocavallo. A pasta dura corta la Fontina. In Italia si contano oltre 500 tipi di formaggi, tanto differenti quanto ugualmente buoni. E le differenze, almeno quando si parla di tavola, significano ricchezza, soprattutto per coloro che avranno la voglia di spendere un fine settimana tra le strade di Gualdo (Macerata) per dedicarsi a degustazioni ed acquisti.
